CHMR

COFFS HARBOUR MINIATURE RAILWAY INC

Are you interested in joining CHMR and be part of a club operating a miniature railway?

Our Goals :

-  Providing a club for people with an interest in (miniature) railways and engineering
-  Educating new members to grow their knowledge and skills in a safe and friendly environment
-  Provide a club track where members can operate a club or private train at member only events
-  Have public running days where we can promote our club and bring enjoyment to the community

What we have to offer :

-  A great, new and unique attraction in and around Coffs Harbour
-  A 5 inch club track on which members can operate a club train or a private loco
-  A railway-orientated club where young and old can contribute a wide range of skills needed to operate a miniature railway. Utilising these skills during public running or private events can bring a feeling of accomplishment and positivity.
-  Knowledge and skills sharing for people who want to learn how to build or operate a miniature train

What we are looking for :

-  We are looking for new members who are willing and able to help operate the railway on a regular basis. This includes jobs like ticket sales, driving, site maintenance, setting and packing up
-  We are after new members who are interested in helping the club in other ways. For example; administration, advice on legal matters, maintaining Facebook / website and the like
-  Young members who are interested in driving the trains and learning about engineering and operating locomotives.

WE'D LOVE TO HEAR FROM YOU !

We are here to answer any questions you may have :
